

TRANSPORT AND STORAGE RECOMMENDATIONS OF FERTILIZER:

Transport:

- Delivered as loose goods in big bags or on pallets with bags and canisters.
- Loose goods must be protected from moisture during transport.
- Protect goods from excessive direct sunlight and large temperature fluctuations during transport.
- Only transport fertilizer at moderate temperatures. Use an air-conditioned lorry if necessary.
- Take note of any hazardous material labels on the product.
- Follow the specific instructions for each product where applicable (see table below).

Storage:

- Protect stored fertilizer from frost, light, and moisture.
- Store loose goods inside a building and not in outdoor areas. Keep doors closed and cover heaped materials.
- As the product has a tendency to attract moisture, protect it from rain and standing water.
- Follow the specific instructions for each product (see table below).
- Take note of the hazardous material labels on the product where appropriate.

Storage temperature:

- Avoid frost and excessively high temperatures.
- Avoid large temperature fluctuations during storage.

Storage period:

- When stored correctly, fertilizer (excluding liquid fertilizer) can be stored in their sealed original packaging for up to three years after delivery.
- Products should be used up as quickly as possible once opened.

Instructions for specific products

Granular NPK fertilizer	Avoid stacking more than two pallets on top of each other. Always cover loose goods and do not offload in the rain.
Slow-release fertilizer	Do not stack pallets on top of each other. Pressure could cause caking of product. Always cover loose goods and do not offload in the rain.
Coated fertilizer	Only transport and store at temperatures between 5°C and 40°C. Only store in the original packaging. Products should be used up as quickly as possible once opened.
Water soluble salts	Do not stack more than two pallets on top of each other. Only store in the original packaging. Products should be used up as quickly as possible once opened.
Liquid fertilizer	Please check the label or safety data sheet for the appropriate transport conditions and storage temperatures.
