

Product Stewardship Policy Statement

At COMPO EXPERT we are committed to excellence in health, safety, security, and environmental performance throughout the lifecycle of our products. As a proud member of the Fertilizers Europe Product Stewardship Program, we adhere to the highest global standards to ensure sustainable and responsible fertilizer production and distribution.

Our Commitments:

1. **Health and Safety:** We prioritize the health and safety of our employees, contractors, customers, and the communities in which we operate. We implement rigorous safety protocols and continuous training to maintain a safe working environment.
2. **Environmental Responsibility:** We are dedicated to minimizing our environmental footprint. This includes optimizing resource use, reducing emissions, and managing waste through recycling and proper disposal practices. We strive to enhance biodiversity and protect natural ecosystems.
3. **Product Quality and Security:** We ensure the highest quality and security of our products from sourcing raw materials to delivery to our customers. Our processes are designed to prevent contamination and ensure the safe handling and storage of fertilizers.
4. **Sustainable Practices:** We promote sustainable agricultural practices by providing products that enhance soil health and crop productivity while minimizing environmental impact. We support the efficient use of fertilizers to reduce nutrient runoff and greenhouse gas emissions.
5. **Stakeholder Engagement:** We actively engage with all stakeholders, including suppliers, contractors, distributors, and customers, to promote best practices and continuous improvement. We believe in transparent communication and collaboration to achieve our stewardship goals.
6. **Compliance and Auditing:** We comply with all relevant regulations and standards. Our adherence to the Fertilizers Europe Product Stewardship Program is verified through regular independent audits, ensuring continuous improvement and accountability.

Continuous Improvement:

We are committed to the ongoing enhancement of our stewardship practices. By leveraging innovation and industry best practices, we aim to lead the way in sustainable fertilizer production and contribute to a healthier planet.

This policy statement reflects our dedication to responsible stewardship and our commitment to the principles set forth by the Fertilizers Europe Product Stewardship Program
